OH MY GOD

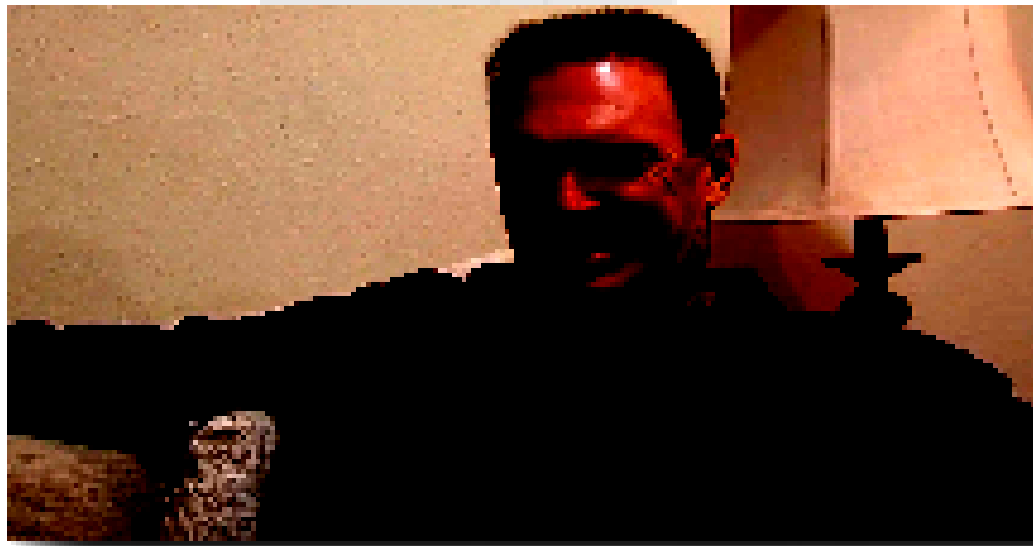

IS URANUS WHAT IT SEEMS?

You all know Uranus. But is it really hiding something? I mean, think about it. When was the last time your girl hired a bunch of construction workers to help her? Yes, now I know I've got you thinking. I mean, we all love Uranus, but come on! It's so dang obvious! It's brainwashing us! All of us! The moon landing? Uranus! The massive dump you just took that clogged the toilet but you're too scared to tell anyone? Uranus AND your anus! Seriously, they have eyes everywhere! THE BIRDS WERE JUST A RUSE. THEY WERE A DISTRACTION. THE REAL THREAT IS URANUS. OH MY GOD.

PRO TIP

Never leave your house.

Q: Okay, Uncle Patrick. Thank you for coming! How have you been feeling?

A: Terrible.

Q: Nice! So are you actually someone's uncle?

A: No.

Q: When did you first pick up the nickname "Uncle Patrick?"

A: Back in '78, when I was 33.

Q: Ah! So you're 43 now. Can you give us a brief summary of who you are and your life up to this point?

A: My name is first name Uncle, last name Patrick. I was born in a toolshed. I fought off a raccoon this morning because he was eating my garbage.

Q: What do you think of today's sponsor?

A: Today's issue is sponsored by Raid Shadow Legends, one of the biggest mobile role-playing games of 2019 and it's totally free! Currently almost 10 million users have joined Raid over the last six months, and it's one of the most impressive games in its class with detailed models, environments and smooth 60 frames per second animations! All the champions in the game can be customized with unique gear that changes your strategic buffs and abilities!

Q: Thanks for coming! Is there anything you'd like to say to the audience?

A: I have a bomb.

CAN HORSES BE TRUSTED?

We all know horses. Loving, kind, and magnificent creatures. But little did we know, they have a dark side they've been waiting to unleash; until now.

In Tennessee, a brutal horse-involved attack was carried out on an elementary school soccer game. 3 were injured, 9 killed, and a handful other traumatized.

Now that the involved horses are awaiting trial in prison, authorities ask the question:

Can horses be trusted? When will the next attack occur? Will the US have to cull the horse population?

COOL OR SCAM

4/4 Stars

To be honest, I never ordered this product. But just to keep it real, I'm giving it 4/4 stars and a rating of cool. It does seem pretty cool, if not for the sketchy website. I, myself, think that the birds around my house are there just to mock me, with their obnoxious headache-inducing 5G emitters. And the beeping. God. I can't even go in my house without feeling nauseous anymore! I might buy this when I finish writing this review. Yeah. I'm gonna do that. Stupid 5G-emitting birds, watching my every move with the built-in cameras. Stupid government with their top secret plan to blow up the moon. Oh wait, that's Gerald Robotnik. My mistake.
